

Peter Harrell

Former Adjunct Senior Fellow, Energy, Economics and Security Program

Peter Harrell is a former adjunct senior fellow at the Center for a New American Security. He is a leading expert on U.S. economic statecraft, including sanctions, export controls, trade policy, and other geoeconomic tools.

Harrell has published widely on topics including the use of economic coercion in the U.S.-China relationship, U.S. sanctions on Russia, Iran, and other countries, and the legal foundations of U.S. sanctions. He has testified in front of multiple congressional committees and his articles and op-eds have appeared in publications including the *Wall Street Journal*, *Foreign Affairs*, *Foreign Policy*, *Politico*, *Lawfare*, and other leading outlets.

From 2012-2014, Mr. Harrell served as the Deputy Assistant Secretary for Counter Threat Finance and Sanctions in the State Department's Bureau of Economic and Business Affairs. From 2009 to 2012 he served on the State Department's Policy Planning Staff, where he was instrumental in developing Secretary of State Hillary Clinton's economic statecraft agenda.

Earlier in his career, Mr. Harrell served on President Barack Obama's 2008 campaign and as a reporter for *Congressional Quarterly* in Washington, D.C. He is the author of one book, *Rwanda's Gamble: Gacaca* and a *New Model of Transitional Justice*. Mr. Harrell is a magna cum laude graduate of Princeton University and holds a J.D. from the Yale Law School.

Robert Hoffman

Head of Government Affairs, Broadcom

As head of government affairs, Robert Hoffman leads in the development and implementation of Broadcom's global public policy and advocacy agenda. Recognized six times by *The Hill* as one of Washington, D.C.'s top lobbyists, Robert brings more than 30 years of public policy experience, including 20 years as a lead government affairs advocate for some of the world's most innovative organizations, including four Fortune 500 companies: Accenture, Motorola Solutions, Cognizant, and Oracle. Robert also led the technology practice at government relations firm Invariant, as well as the advocacy team at the Information Technology Industry Council (ITI), a trade association of more than 50 world-leading technology companies.

As a tech industry advocate, Robert has appeared on CNN, CNBC, MSNBC, PBS, and NPR; has been published in the *Wall Street Journal*; and was a regular contributor on tech policy for *The Daily Caller*.

Robert spent 13 years in public service as a policy advisor and speechwriter for four U.S. senators and the governor of California. His policy work in public service focused on technology, telecommunications, immigration, workforce development, national security, and nuclear weapons proliferation.

Robert received a bachelor's degree in political science, magna cum laude and Phi Beta Kappa, from the University of California at Los Angeles (UCLA), and a master's degree in public policy, with highest

honors, from the University of Maryland. Fifty years a member of the Screen Actors Guild, Robert was an original cast member on *Little House on the Prairie*, and regularly appeared on the award-winning bilingual public television show *Villa Allegre*. When asked if he misses acting, Robert's response: "I'm an advocate – who says I've stopped acting?"

John Neuffer

President & CEO, Semiconductor Industry Association

John Neuffer has been President and CEO of the Semiconductor Industry Association (SIA) in Washington, DC since 2015. Mr. Neuffer is responsible for leading the association's public policy agenda and serving as the primary advocate for maintaining U.S. leadership in semiconductor design, manufacturing, and research. Prior to SIA, he served for seven years as SVP for Global Policy at the Information Technology Industry Council. For the previous two years, he was Deputy Assistant U.S. Trade Representative for Asia-Pacific Economic Cooperation (APEC), preceded by five years as Deputy Assistant U.S. Trade Representative for Japan. For nine years before his government service, he was a Senior Research Fellow and Political Analyst with Mitsui Kaijyo Research Institute in Tokyo, where he was a leading commentator on Japanese politics and policy.

Michael Petricone

Senior Vice President of Government Affairs, Consumer Technology Association

Michael Petricone is the senior vice president of government affairs for the Consumer Technology Association (CTA). Based in Arlington, VA, CTA is the trade association representing the \$351 billion U.S. consumer technology industry, which supports more than 15 million U.S. jobs. CTA also owns and produces CES® – the world's gathering place for all who thrive on the business of consumer technologies.

In his position, Petricone is responsible for representing the consumer technology industry's position before the U.S. government on key technology policy issues that impact Americans' lives. For over two decades, Petricone has advocated before Congress, federal agencies and state governments on areas such as Internet freedom, intellectual property, music licensing, trade, spectrum and high-skilled immigration.

Frequently listed as one of DC's top lobbyists, Petricone has been at the forefront of transformative innovations like transition to digital television, the advent of music streaming, and the rise of the internet as a platform that allows us to connect, collaborate and communicate.

Petricone is passionate about using technology as force for inclusion, diversity, and social good. He serves as a board member for a number of non-profit organizations such as Public Knowledge, Center for Democracy and Technology, the American Library Association, Engine Advocacy and the i2Coalition.

Petricone received his law degree from Georgetown University Law Center and his undergraduate degree from Tufts University. Originally hailing from Connecticut, he now resides in Washington, DC with his wife and two sons.

Sreenivas (Sree) Ramaswamy

Senior Policy Advisor, Office of the Secretary, US Department of Commerce

Sree is a senior policy advisor to the US Secretary of Commerce. His expertise is in the areas of technology strategy, industrial competitiveness and supply chain resiliency, and the impact of business activity on the economy and society.

Sree was formerly a Partner at the McKinsey Global Institute (MGI), the non-profit business and economics research arm of McKinsey & Company. For the past decade Sree has led research on the evolution of global competition among companies and its impact on American competitiveness, with a focus on firms and workers in the US high-tech and manufacturing sectors. His recent work focuses on the opportunities and barriers to revitalize American manufacturing; the rise of “superstar” firms and cities and their implications for inequality and growth; and the changing role of companies in the economy and effects on households in the United States and other advanced economies.

In his role at MGI Sree brought facts and insights to inform decision-making in government and the private sector. Over the past decade such briefings have included senior leaders in the White House, Congress, federal agencies, and state and local governments; multilateral and international bodies such as the World Bank; C-suites and corporate boards of Fortune 500 companies ranging from technology companies to large banks and industrial giants; and media and academia. His published work is freely available to the public and is frequently cited in the Economist, Fortune, Financial Times, Harvard Business Review, and Wall Street Journal.

Prior to joining McKinsey in 2008, Sree spent nearly a decade in the US aerospace and telecom sectors with roles in engineering and regulatory affairs. He holds three patents, an MBA, and Master’s and Bachelor’s degrees in computer engineering and telecommunications.

David Shepardson

Correspondent, Reuters

David Shepardson is a regulatory correspondent for Reuters. He writes about the FCC, vehicle manufacturing and other regulatory issues. Prior to Reuters, he worked at The Detroit News, serving as the publication’s Washington, D.C. bureau chief and auto industry reporter, covering FBI, US Attorney’s Office and court system. He received his Bachelor of Arts from the University of Michigan and is based in Washington, D.C.

Jayne Stancavage

Global Executive Director of Product & Digital Infrastructure Policy, Intel Corporation

Jayne Stancavage is the Global Executive Director of Product & Digital Infrastructure Policy for Intel Corporation, responsible for Intel's policies related to digital infrastructure including connectivity (e.g. 5G & Wi-Fi), Artificial Intelligence, Autonomous Driving, and Internet of Things. Jayne joined Intel in 2000, focusing on communications policy. In addition to her policy work, she has also worked within Intel business units where she coordinated Intel's internal efforts to embed Wi-Fi capabilities into notebook computer platforms.

Jayne currently serves on the Board of Directors for the US Telecom Training Institute, and the Open RAN Policy Coalition; she is also on the Global mobile Suppliers (GSA) Spectrum Group management team and the Consumer Technology Association (CTA) Board of Industry Leaders. She has previously served multiple terms on the Wi-Fi Alliance Board of Directors. In addition, she continues to serve as chair of the US FCC's WRC Advisory Committee terrestrial services working group.

Jayne received both her bachelor's and master's degrees in Political Science from the Massachusetts Institute of Technology.

Bruce Stokes

Non-Resident Transatlantic Fellow, The German Marshall Fund of the United States

Bruce Stokes is the executive director of the Transatlantic Task Force: Together or Alone? Choices and Strategies for Transatlantic Relations for 2021 and Beyond. Previously, he was the director of Global Economic Attitudes at the Pew Research Center in Washington, DC, and is a former international economics columnist for the National Journal, a Washington-based public policy magazine. He is also a former senior fellow at the Council on Foreign Relations.

From 2010-2012 Stokes was a senior fellow at the German Marshall Fund. He was the author of the 2009 Transatlantic Trends survey, and two task force reports: The Case for Renewing Transatlantic Capitalism, and A New Era for Transatlantic Trade Leadership.

In 1987 and again in 1989, Stokes was a Japan Society Fellow, living in and reporting from Japan. In 1997, he was a member of President Clinton's Commission on United States-Pacific Trade and Investment Policy and he wrote its final report, "Building American Prosperity in the 21st Century."

He is co-author of the book America Against the World: How We Are Different and Why We Are Disliked (Times Books, 2006), and co-author of numerous Pew Global Attitudes Surveys.

In 2006, Stokes was honored by the Coalition of Service Industries for his reporting on services issues. In 2004, he was chosen by International Economy magazine as one of the most influential China watchers in the U.S. press. In 1995, he was picked by Washingtonian Magazine as one of the "Best on Business"

reporters in Washington. In 1989, Stokes won the coveted John Hancock award for excellence in business and economics reporting for his series on the impact of the rising yen on the Japanese economy.

Stokes is a graduate of the School of Foreign Service at Georgetown University, the School for Advanced International Studies at Johns Hopkins University, and attended the Graduate School of Journalism at Columbia University.
