AT&T Expands Fiber Network to Help Close Digital Divide in the McAllen Area

AT&T Fiber, Ultra-Fast Internet Speeds Now Available to More Locations in McAllen

McAllen, TX., September 15, 2022 — Continuing our efforts to close the digital divide and connect people wherever they live and work, [AT&T](#)^{*} is expanding our award-winning fiber network to serve more residential and small business locations across the McAllen metro area.

This week, AT&T announced new availability of AT&T Fiber to more than 1,000 customer locations in parts of McAllen.

“The pandemic highlighted the need for everyone to have access to a fast, reliable and affordable internet connection,” said Javier Villalobos, Mayor, City of McAllen. “I thank AT&T for expanding this vital service to additional residents and businesses in our community and for the continued commitment to invest in our city.”

The expanded network will give more customers access to ultra-fast home internet speeds up to 5-Gigs.¹ You can sign up to be notified when AT&T Fiber is available to their address through att.com/notifyme.

AT&T is committed to connecting more Americans to reliable, high-speed broadband internet in several ways, including expanding and upgrading our network and participating in the federal Affordable Connectivity Program (ACP). The ACP provides eligible households with a benefit of up to \$30 a month (up to \$75 on qualifying Tribal lands) to reduce the cost of broadband service and can be applied to all our AT&T Fiber speed tiers. Additionally, you can apply your ACP benefit to [Access from AT&T](#) to get **internet speeds of up to 100Mbps, where available, \$0.**

After you confirm your [ACP eligibility](#), call us at 866-986-0963 to discuss your options and order service. Be sure to have your National Verifier application ID handy when you call.

“Expanding our fiber footprint and doing our part to help close the digital divide is one of our top priorities,” said JD Salinas, Vice President, AT&T External Affairs. “We are committed to investing in the modern, high-speed network infrastructure necessary to drive economic growth and support the increased number of people learning and working from home.”

AT&T Fiber, now delivering speeds of up to 5-Gigs, is truly internet that upgrades everything. Offering consumers the fastest internet² paired with network reliability, AT&T Fiber supports the

¹ **Limited availability in select areas.** Internet speed claims represent maximum wired network service capability speeds to the home and recommended setup. Actual customer speeds are not guaranteed. Single device wired speed maximum 4.7Gbps. For more information go to www.att.com/speed101

² Fastest among major internet service providers, based on 5Gbps offering.

powerfully interconnected home, work and family life. Our straightforward pricing eliminates annual contracts, data caps, equipment fees and price increases at 12 months, for all new customers. Plus, AT&T ActiveArmorSM internet security and our next-gen Wi-Fi are included at no additional cost.
