

AT&T Boosts Network Speeds for the Omaha Area

Network Expansion in Omaha Will Help Give AT&T Customers Better Access to Mobile Internet

Omaha, October 26, 2022

What's the news? AT&T* has expanded its 5G network in Omaha, giving residents, businesses and visitors a big boost in their wireless connectivity. We've added new network infrastructure to enhance the area's coverage and capacity, and help customers unlock the power of America's Most Reliable 5G Network.¹

Why is this important? We know how important it is for our customers to stay connected. And AT&T 5G brings fast, reliable and secure connectivity to more than 281 million people in over 22,000 cities and towns nationwide, which now includes Omaha. This helps Nebraska residents and businesses get the best possible experience over the AT&T network wherever they live, work and play.

These enhancements also bring Band 14 spectrum to the area. Band 14 is nationwide, high-quality spectrum set aside by the government specifically for FirstNet. We look at Band 14 as public safety's VIP lane. In an emergency, this band – or lane – can be cleared and locked just for FirstNet subscribers. When not in use by FirstNet subscribers, AT&T customers can enjoy Band 14's added coverage and capacity.

Our commitment to Nebraska communities: From 2019 to 2021, we *invested* nearly \$175 million in our wireless and wireline networks in Nebraska. These investments boost reliability, coverage, speed and overall performance for residents and their businesses.

What people are saying:

Pete Ricketts

Governor – State of Nebraska

"Omaha continues to model the way for efficient, smart 5G deployment, and partners like AT&T are helping advance this important work. Today's announcement is a great step forward with a strategic partner in increasing access to 5G technologies across our

community, and will help Omaha innovate in exciting new technologies,” said **Governor Pete Ricketts**.

Dustin Blythe

Director of External Affairs – Iowa and Nebraska

“From connecting family and loved ones to helping first responders during a crisis, AT&T is committed to investing in Omaha and across the state to build state-of-the-art infrastructure that will help keep people connected,” said **AT&T Director of External Affairs Dustin Blythe**. “By continuing to improve our network at the state and local levels, we are helping businesses grow in Nebraska and helping to ensure that our customers and communities stay connected throughout the country.”
